**2. ACCOUNTING REGIME AND POLICIES APPLIED AT THE COMPANY****2.1. Accounting Period, Accounting Currency**

The financial year of the Company begins on January 1st and ends on December 31st annually.

The currency used in accounting records is the Vietnamese Dong (VND).

## 2.2. Accounting standards and applicable accounting regime

### *Applicable accounting regime*

The Company applies the enterprise accounting regime guided by Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance, as amended and supplemented by Circular No. 75/2015/TT-BTC dated May 18, 2015 and Circular No. 53/2016/TT-BTC dated March 21, 2016.

### *Declaration on Compliance with Vietnamese Accounting Standards and Regime*

The Company applies Vietnamese Accounting Standards and other guiding documents issued by the Government. The financial statements are prepared and presented in accordance with applicable accounting standards and the accounting regime currently in effect for Vietnamese enterprises.

## 2.3. Basis of preparation of

The Separate Financial Statements are prepared on a historical cost basis.

Users of these Separate Financial Statements should read them in conjunction with the Consolidated Financial Statements of the Company and its Subsidiaries (the Group) for the Quarter IV 2025 to obtain sufficient information on the financial position, operating results, and cash flows of the entire Group.

## 2.4. Financial instruments

### *Initial recognition*

#### Financial assets

Company's financial assets include cash and cash equivalents, accounts receivable and other receivables, loans, short-term and long-term investments. At the initial recognition date, financial assets are measured at cost, which is the purchase price plus other directly attributable transaction costs incurred in acquiring the financial asset.

#### Financial liabilities

Company's financial liabilities include borrowings, accounts payable and other payables, and accrued expenses. At the initial recognition date, financial liabilities are measured at fair value plus transaction costs incurred directly attributable to the issuance of the financial liability.

### *Subsequent measurement after initial recognition*

Currently, there are no specific regulations on the revaluation of financial instruments after initial recognition.

## 2.5. Cash and cash equivalents

Cash includes cash on hand, demand deposits and term deposits, cash in transit, and monetary gold.

The cash equivalents are short-term investments with a maturity of three months or less at the time of purchase, are readily convertible to a definite amount of cash, and are subject to an insignificant risk of transformation into cash.

## 2.6. Financial investments

Investments held to maturity include: Deposits with banks with fixed terms, loans, etc., which are held until maturity with the aim of receiving periodic interest and other investments held to maturity.

Investments in subsidiaries, joint ventures, and associated companies are initially recognized in the accounting records at cost. After initial recognition, the value of these investments is determined at cost less any allowance for investment loss.

Investments in other entities include investments in equity instruments of another entity that do not control, jointly control, or have significant influence over the investee. The initial carrying amount of these investments is measured at cost. After initial recognition, these investments are measured at cost less allowance for investment loss.

Provisions for impairment of investments are made as of the year-end as follows:

- For trading securities investments: The basis for provision recognition is the difference between the carrying amount of the investments recorded in the general ledger and their market value at the time of provision
- For long-term investments (not classified as trading securities) and with no significant influence on the investee: If the investment in listed shares or the fair value of the investment can be reliably determined, the provision is based on the market value of the shares; if the fair value of the investment cannot be determined at the reporting date, the provision is based on the financial statements of the investee at the time the provision is recognized.
- For held-to-maturity investments: The provision for doubtful receivables is based on the recoverability assessment in accordance with the legal regulations.

## 2.7. Receivables

Receivables are classified as receivables from customers, terms, currency and other receivables according to the company's management needs.

The allowances for doubtful debts are made for each doubtful debt based on the age of overdue debts or expected losses that may occur. Increasing or decreasing the balance of allowances for doubtful debts are recorded in the general and administrative expenses account.

## 2.8. Inventories

Inventories are reported at historical cost including: purchasing, processing, and other directly attributable costs incurred in bringing the inventories to their present location and condition. After initial recognition, at the time of preparation of the separate financial statements, if the net realizable value of inventories is lower than cost, the inventories are recognized at net realizable value.

The method of calculating the value of inventory is determined by the weighted average method.

The method of inventory accounting is the method of perpetual inventory count.

Method of determining the value of work in progress at the end of the : Work in progress is collected for each work that has not been completed or revenue has not been recorded, corresponding to the amount of work in progress at The allowances for a devaluation of inventories are made at the end of based on the difference between the historical price of the inventory and the net realizable value.

## 2.9. Fixed assets

Tangible fixed assets, intangible fixed assets are stated at historical cost. During use, Tangible fixed assets, intangible fixed assets are stated at historical cost less accumulated depreciation.

Depreciation are stated based on straight-line depreciation method with the estimated depreciation period as follows:

- |                          |              |
|--------------------------|--------------|
| - Equipment              | 03 - 15 year |
| - Transportation         | 10 year      |
| - Office Equipment       | 03 - 05 year |
| - Software Program       | 03 year      |
| - Other intangible asset | 10 year      |

**2.10. Construction in progress**

The assets under construction for the purpose of production, lease, administration, or any other purposes are stated at historical cost. Costs include construction costs, installation of machinery and equipment, other costs... and for qualifying assets, borrowing costs are recognized in accordance with the Company's accounting policies. Depreciation of these assets, like other fixed assets, will commence when the assets are ready for their intended use.

**2.11. Operating Leases**

Operating leases are a type of lease where substantially all the risks and rewards incidental to ownership of an asset remain with the lessor. Payments made under an operating lease are recognized as an expense in the statement of profit or loss on a straight-line basis over the lease term.

**2.12. Prepaid expenses**

Prepaid expenses are actual costs that arise as a result of production and business activities of the various accounting periods are accounted into prepaid expenses to gradually allocate to business results in the following accounting

The calculation and allocation of long-term prepaid expenses to production expenses of each accounting period is based on the nature and level of each type of expenses to choose a reasonable method and allocation criteria. Prepaid expenses are gradually allocated to production and business expenses according to the straight-line method.

**2.13. Payables and accrued expenses**

Liabilities are classified by payment term, payable suppliers, currency and other payables according to the Company's management needs.

**2.14. Loans**

Loans and finance lease debts are classified according to lender, loan contract and the repayment term of the loans and finance lease debts. In case of loans or debts in foreign currency, classification is done in the original currency.

**2.15. Borrowing Expenses**

Borrowing expenses are recorded in operating expenses in the year when incurred, except for borrowing expenses directly related to construction investment or production of unfinished assets which are included in the value of the asset. (capitalized) when all the conditions specified in Vietnamese Accounting Standard No. 16 "Borrowing costs" are met. In addition, for separate loans to build fixed assets, invest real estate, loan interest is capitalized even if the construction period is less than 12 months.

**2.16. Accrued Expenses**

Accrued expenses reflect the payables for goods and services which received from the seller or provided for the buyer during the reporting period but not actually paid are recorded in operating expenses of the reporting period.

The payable expenses into operating expenses during the year is recorded according to the principle of matching between revenue and expenses incurred during the year. The payable expenses will be settled with the actual expenses incurred. The difference between the pre-deducted amount and the actual cost is refunded.

**2.17. Unearned Revenue**

Unearned revenue is the amount of money received from customers in advance for one or more accounting periods

Unearned revenue is recognized in revenue from sales of goods and services according to the amount determined to be appropriate for each accounting period.

**2.18. Owner's Equity**

Owner's equity is recorded based on the actual contributed capital of the owner.

Retained earnings reflect the business results (profit or loss) after income tax and the distribution of profit or loss treatment of the company. Profit distribution is made when the Company has retained earnings that do not exceed the amount of retained earnings on the consolidated financial statements after excluding the effect of gains from bargain purchases. In case of paying dividends or profits to owners exceeding the amount of retained earnings recognized as a case of reducing capital contribution. Retained earnings can be distributed to investors based on their contribution ratio after being approved by the General Meeting of Shareholders and after setting up funds according to the Company's Charter and regulations of Vietnamese law.

**2.19. Revenue And Earnings***Revenue from sales of finished goods and merchandise goods*

Revenue from sales of finished goods and merchandise goods are recorded when simultaneously satisfy the

- Most of the risks and rewards associated with ownership of the goods have been transferred to the customers;
- The Company no longer retains management of goods as cargo owners or control of goods;
- The revenue can be measured reliably;
- The Company has obtained or will obtain economic benefits from the sale transaction;
- It is probable to determine the costs related to sales transactions.

*Revenues from provision of services*

Revenue from provision of services is recorded when simultaneously satisfy the following conditions:

- The revenue can be measured reliably
- It is probable that there are economic benefits associated with the transaction of providing such services.
- It is probable to specify the portion of work at the date of the separate statement of financial position;
- The costs incurred for the transaction and the costs to complete the transaction that provides that service.

The portion of service completed is determined by the work done evaluation method.

*Revenue from the sales of real estate and real estate business right*

Revenue from real estate sales is recorded when simultaneously satisfy the following conditions:

- The real estate has been fully completed and provided to the buyer. The company has transferred risks and benefits associated with the ownership of real estate to the buyer;
- The company no longer retains control over the real estate as the owner of the real estate or control over the real estate;
- Revenue is measured to be reasonably certain.
- The company has received or will receive economic benefits from the real estate sales transaction;
- Identifying costs associated with the real estate sales transaction.

*Revenue from operating leases*

Revenue from operating leases mainly includes revenue from the lease of assets recognized in the statement of income using the straight-line method throughout the lease term as prescribed by the lease agreement.

*Revenue from financial activities*

Revenue arising from interest, royalties, dividends, profit sharing, and other financial activity revenue is recognized when both of the following conditions are met:

- There is the possibility of obtaining economic benefits from that transaction;
- Revenue is measured to be reasonably certain.

## 2.20. Cost Of Goods Sold

Cost of goods sold in the year is recognized in accordance with revenue generated in the year and ensuring compliance with the principle of prudence. Cases of loss of materials, goods exceeding the standard, inventory loss after deducting the responsibility of the collective, individuals involved... are fully recognized and timely in the cost of goods sold in the year.

## 2.21 Finance Costs

The expenses recognized as financial expenses include:

- Borrowing costs; Contribution costs to joint ventures and associates; and losses related to financial investment
- Provision for impairment losses on investments in other entities, losses incurred from foreign currency sales,

The above expenses are recognized based on the total amount incurred during the period, without offsetting against financial income.

## 2.22. Corporate income tax

### a) Deferred Tax Assets and Deferred Tax Liabilities

Deferred tax assets and deferred tax liabilities are recognized for the temporary differences between the carrying amount of an asset or liability and its tax base. Deferred tax assets are recognized for deductible temporary differences and carryforward of unused tax losses and tax incentives. Deferred tax liabilities are recognized for taxable temporary differences.

### b) Current Income Tax Expense and Deferred Income Tax Expense

Current income tax expense is determined based on the taxable income for the period and the current income tax rate. Deferred income tax expense is determined based on the temporary differences deductible, taxable temporary differences, and the income tax rate.

Current income tax expense is not offset against deferred income tax expense.

### c) Current Income Tax Rate

The Company applies a 20% income tax rate for all income-generating activities subject to corporate income tax for the Fourth Quarter 2025.

## 2.23. Related parties

The parties are considered to be related if that party has the ability to control or significantly influence the other party in making decisions on financial policies and operations. The related parties of the Company include:

- Enterprises directly or indirectly through one or more intermediaries, control the Company or under the control of the Company, or jointly control the Company, including its parent company, subsidiaries, and associated companies;
- The individual directly or indirectly holds voting rights of the Company that have a significant impact on the Company, the key management personnel of the Company, the close members of the family of these individuals;
- Enterprises of the individuals above directly or indirectly hold an important part of the voting rights or have a significant influence on the Company.

In considering the relationship of the parties involved for the purpose of preparing and presenting the Separate Financial Statement. The nature of the relationship is more emphasized than the legal form of the relationship.

(I) At January 1, 2025, the accumulated work-in-progress cost of the project was VND 218,295,997,573, of which the Company had received a cooperative capital contribution from Pegasus Thang Long Co., Ltd. amounting to VND 116,042,770,800. The Company made a provision for impairment of VND 102,253,226,773, representing the loss after offsetting the cooperative capital received from Pegasus Thang Long. All incurred costs (including the value of land use rights and construction in progress) have been mortgaged to a bank as collateral for Pegasus Thang Long's loan. Regarding this collateral, the Civil Judgment Enforcement Sub-department of Tan Binh District issued Decision No. 02/QĐ-CCTHADS dated October 10, 2024, on the enforcement of the transfer of land use rights, and Decision No. 63/QĐ-CCTHADS dated November 5, 2024, on the termination of the temporary suspension of registration, transfer of ownership, use rights, and alteration of the asset's status. On March 25, 2025, the Company and Pegasus Thang Long Co., Ltd. signed a debt confirmation record, under which the Company no longer has any payable obligations to Pegasus Thang Long Co., Ltd. related to the project. Accordingly, the Company has adjusted the relevant accounting figures during the period. Both parties continue to cooperate in resolving the remaining matters of the project.

			31/12/2025	01/01/2025
<b>Financial liabilities</b>			VND	VND
Accounts payable, other payables			19,631,555,812	20,056,589,397
Accrued expenses			1,912,423,718	1,897,423,718
			<b>21,543,979,530</b>	<b>21,954,013,115</b>

Financial assets and financial liabilities are not fair valued at the end of the reporting period according to Circular 210/2009/TT-BTC and other current regulations, which require the presentation of Financial Statements and Notes to the Financial Statements for financial instruments but do not provide equivalent guidance for the valuation and recognition of fair value of financial assets and financial liabilities, except for provisions for doubtful receivables as detailed in the relevant Notes.

**Financial risk management**

Company's financial risks include market risk, credit risk, and liquidity risk. Company has established a control system to ensure a reasonable balance between the cost of risk incurred and the cost of risk management. The Board of Management of the Company is responsible for monitoring the risk management process to ensure a reasonable balance between risk and risk control.

**Market Risk**

Company's business operations will be mainly affected by changes in interest rates.

*Interest Rate Risk*

Company is exposed to interest rate risk due to the fact that the fair value of future cash flows of a financial instrument will fluctuate with changes in market interest rates when Company incurs deposits with or without a fixed term, loans and borrowings with floating interest rates. Company manages interest rate risk by analyzing market competition to obtain interest rates that are beneficial for Company's objectives.

*Credit Risk*

Credit risk is the risk that a party to a contract will be unable to fulfill its obligations, resulting in financial losses for the Company.

*Accounts Receivable*

The Company minimizes credit risk by only transacting with financially sound entities and the accounts receivable staff regularly monitors receivables to expedite collection. Based on this and the fact that the Company's receivables are related to many different customers, credit risk is not concentrated on any particular customer.

*Bank deposits*

A significant portion of the Company's bank deposits are held with large, reputable Vietnamese banks. The Company considers the credit risk concentration on bank deposits to be low.

*Liquidity Risk*

Liquidity risk is the risk that the Company will face difficulties in meeting its financial obligations due to a lack of funds. Liquidity risk of the Company mainly arises from the fact that financial assets and financial liabilities have different maturity dates.

The maturity of financial liabilities is based on the expected payment schedule according to the contract (based on the cash flow of the principal) as follows:

	Less than 1 year	From 1 years to 5 years	Over 5 years	Total
As at 31/12/2025	VND	VND	VND	VND
Accounts payable, other payables	19,631,555,812	-	-	19,631,555,812
Accrued expenses	1,912,423,718	-	-	1,912,423,718
	<b>21,543,979,530</b>	<b>-</b>	<b>-</b>	<b>21,543,979,530</b>
As at 01/01/2025				
Accounts payable, other payables	20,056,589,397	-	-	20,056,589,397
Accrued expenses	1,897,423,718	-	-	1,897,423,718
	<b>21,954,013,115</b>	<b>-</b>	<b>-</b>	<b>21,954,013,115</b>

The company believes that the risk concentration for debt repayment is manageable. The company has the ability to pay due debts from cash flow from business activities and proceeds from maturing financial assets.

**30. TRANSACTIONS AND BALANCES WITH RELATED PARTIES**

During the period, the Company has entered into its significant transactions and balances with related parties as follows:

**31 COMPARATIVE FIGURES**

The figures in the Statement of Financial Position (Balance Sheet) are compared with the figures from the separate financial statements for the fiscal year ended December 31, 2024, which were audited by CPA Vietnam Auditing Co., Ltd. The comparative figures in the Statement of Income (Income Statement) and the Statement of Cash Flows are compared with the Q3 2024 financial statements, which have been publicly disclosed.

**32. EXPLANATION OF DIFFERENCES IN FIGURES IN THE INCOME STATEMENT**

*(This explanation is provided pursuant to the provisions of Circular No. 96/2020/TT-BTC dated November 16, 2020, guiding the disclosure of information on the securities market.)*

Profit after tax for the fourth quarter of 2025 amounted to VND 14.7 billion, equivalent to 17.3% of the figure recorded in the same period of 2024. The primary factors contributing to this variance are detailed as follows:

1. Net revenue from sales of goods and provision of services in Quarter IV 2025 reached VND 33 billion, recording an increase of VND 2.6 billion, equivalent to 8.6% compared to the same period last year, due to the expansion and enhancement of commercial activities.
2. Cost of goods sold in Quarter IV 2025 reached VND 30 billion, an increase of VND 2.7 billion, corresponding to a 10.1% increase compared to the same period last year.
3. Financial income in Quarter IV 2025 reached VND 9.5 billion, a decrease of VND 1.1 billion, equivalent to a 10.6% decline compared to the same period in 2024, mainly due to a decrease in deposit interest income.
4. Financial expenses in Quarter IV 2025 were negative VND 9.7 billion, mainly due to the reversal of provisions for financial investments following improved business performance of subsidiaries, whereas in the same period last year, the Company recognized provision expenses of VND 20 billion.
5. General and administrative expenses in Quarter IV 2025 amounted to nearly VND 8 billion, a decrease of nearly 5.1% compared to the same period last year. This was due to the Company's implementation of measures to optimize the organizational structure and strictly control regular operating expenses.
6. Other income in Quarter IV 2025 amounted to VND 297 million, representing a decrease compared to the same period in 2024, as the Company recognized income from debt settlement activities in the prior period.
